Left to Right: Glenn, George and Ralph Struve of the firm of Geo. Struve & Sons, pause for the photographer when they were hosts for the 1955 Iowa State Shorthorn Breeders' field Day at their Lane View Farm.

TO OUR SHORTHORN FRIENDS—

It is with a great deal of pride that we present this production offering from our Lane View herd. First, because our herd has now reached sufficient size when we can offer you this entire 1955 calf crop without reservations. Second, because we offer you nearly our entire 1956 show herd that has made an enviable record against the strongest competition in the strongest shows. Third, because we offer you 9 bulls and 20 females by our great show and breeding bull, MARELLBAR DUPLICATOR, who is the best sire of both bulls and females we have ever owned. Fourth, because we offer you 15 females carrying the service of our very popular show winning junior herd sire, MELBOURNE LEISHMAN, and Fifth, because we are selling some members of our most outstanding producing families that we have never offered before.

We have been breeding Shorthorns for many years and they have done well for us. But what is still more gratifying is that our Shorthorns have always done well for others. We have confidence in this offering and give it our best recommendation.

We are very pleased that H. Russell Held, Hinton, Iowa, has joined us in making this a top quality, well rounded offering. The Held herd is one of the oldest in Iowa that has also made a fine show and breeding record. This offering is a definite asset to the sale.

We sincerely hope that all our friends and those interested in good Shorthorns will be with us on sale day.

GEORGE, RALPH and GLENN STRUVE,

Manning, Iowa.

Standard Guarantee

OF

AMERICAN SHORTHORN BREEDERS

ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs disease of the state.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health Certificates provided with each lot sold.

PLEASE NOTE: LOTS 34 TO 46 INCLUSIVE IN THIS CATALOG ARE BEING CONSIGNED BY H. RUSSELL HELD, HINTON, IOWA. STUDY THE PEDIGREE OF REFERENCE SIRE C, THE HELD HERD SIRE CATALOGED JUST AHEAD OF LOT 34.

SHORTHORN FRIENDS—

I was pleased when Geo. Struve & Sons asked me to join them in a top production sale. Both our herds have made good show records and have done well for others. I am sure that WESTDRUMS VICEROY is the best bull we have ever owned and, therefore, take pride in offering 3 bulls and 6 heifers by this outstanding sire. In order that this might be a top production sale, some females that should have been kept in the herd are being offered. They come from families with long top production records and can be recommended with confidence.

May you be with us on sale day.

H. RUSSELL HELD, Hinton, Iowa.

"A natural top production sale" was my reaction when Geo. Struve & Sons and H. Russell Held suggested that they hold a joint production sale.

And such it is, because these two herds are among the oldest, the most reliable and the most consistently top producing herds in the country.

To make this sale doubly attractive is the fact that the Struves are selling an entire calf crop, nearly an entire show herd, and Held is selling a draft of young cattle, many of which were intended for herd replacements.

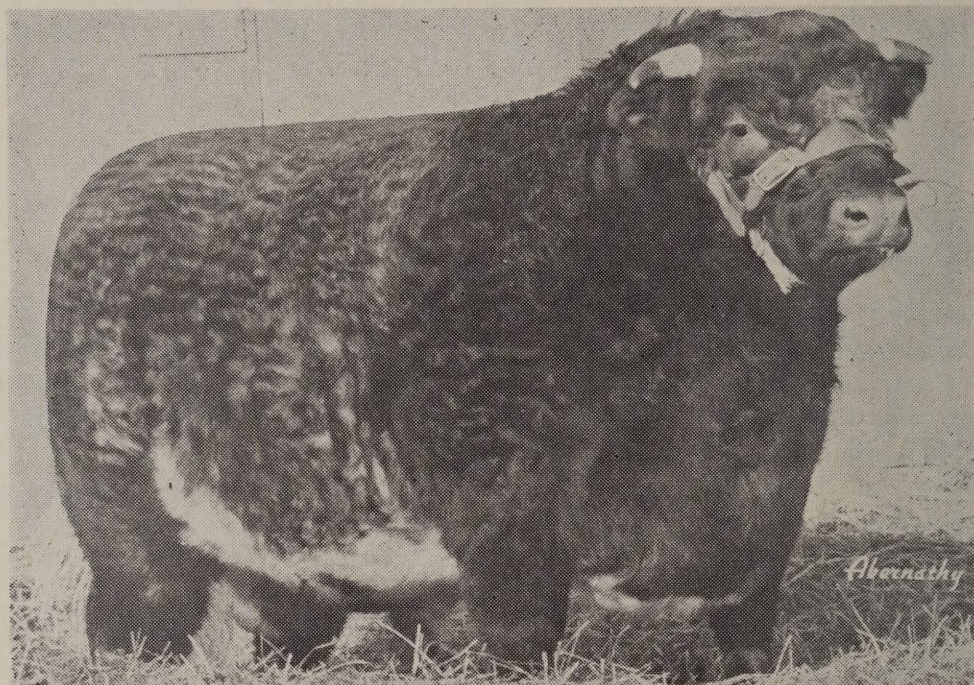

Both herds very definitely represent SHORTHORN PROGRESS over a period of many years. The record of winners at all major shows is testimonial proof of the show yard qualification of the Struve and Held herds.

This sale offers more show winners and the produce and close ancestry of show winners with long productivity records behind them such as is found in very few sales.

In my travels among Shorthorn herds it has been my experience to find many Shorthorns from these herds that have done exceptionally well in other herds. These are good, sound, honest, good doing beef cattle backed by the best of ancestry. They will please those who demand the best.

It will be to your advantage to attend this sale and select some of this good, young, prolific and superior seed stock to improve your herd.

ALBERT J. HAMANN,
Sale Manager.

MARELLBAR DUPLICATOR—Sired by the noted Cruggleton Allardice, his dam was the great show cow Marellbar Lancaster. He was shown only a few times but with great success. At the 1952 International he was third in class. At the 1953 Denver Show he was reserve junior champion, and at the 1953 International he was first prize senior yearling. Marellbar Duplicator is the best breeding bull that we have ever owned. He has consistently sired the most uniform lot of top calves anyone could expect. Both his bulls and heifers have been of equal excellence and have both been equally successful in the show ring. As proof, he sired a first prize bull and a reserve senior champion female at the 1955 International. Everyone agrees that he is an outstanding sire of both bulls and females. Nine bulls and 20 females by him sell in this sale.

MELBOURNE LEISHMAN—A bull that is proclaimed by many as the best son of the noted Craggleton Leishman. His dam was a Marellbar sale top heifer. At the 1955 International he was a very popular bull and managed to stand second in class to the reserve grand champion bull of the show. Even though having been in heavy service he was made reserve grand champion bull of the 1956 Iowa State Fair. Fifteen females in this sale carry his valuable service.
